Faculty Early Career Development Program (CAREER)  
Program Solicitation 22-586

Proposal Submission Timeline

This supplementary guidance provides a timeline and walk-through of the key milestones that must be completed in order to submit an NSF CAREER proposal by the July 27, 2022, deadline in response to Program Solicitation NSF 22-586. Research proposals submitted in response to this Program Solicitation must be prepared and submitted via Research.gov or via Grants.gov, and may not be prepared or submitted via FastLane.

Be sure to aim to complete these milestones early to allow time to resolve any problems in advance of the deadline and avoid high volume delays at the NSF Help Desk. Please see the CAREER Program page for additional information.

**Account Management**

Additional NSF account management information including an Account Management Guide with step-by-step instructions and screenshots, Frequently Asked Questions (FAQs), and video tutorials is available on the Research.gov About Account Management page.

**Preparing Your CAREER Proposal in Research.gov**

- Information on Research.gov proposal preparation including FAQs, how-to guides, and video tutorials is available on the Research.gov About Proposal Preparation and Submission page.

- Access the Research.gov Proposal Preparation Demo Site via Research.gov Demo Site: Prepare Proposals to explore the system before working on your proposal. If you are not already signed in to Research.gov, you will be prompted to sign in to access the demo site.

- See the demo site FAQs on the Research.gov About Proposal Preparation and Submission page left navigation menu for additional information on demo site access and features.

**Questions**

- For IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 (7:00 AM - 9:00 PM ET; Monday - Friday except federal holidays) or via email at rgov@nsf.gov.

- CAREER program-related questions should be directed to the Directorate or Division contacts listed at http://www.nsf.gov/crssprgm/career/contacts.jsp. Contact the Faculty Early Career Program at 703-292-5111 or via email at nsf-ccc@nsf.gov.
I do not have an NSF ID and a PI role to start preparing my proposal...

To apply to the CAREER program, you must have an NSF ID and an organization-approved Principal Investigator (PI) role at an organization registered with NSF. You request the PI role electronically, and your organization’s Administrator is responsible for approving it in advance.

I have an NSF ID but have not signed in to Research.gov for an extended period of time...

If you have not signed in to Research.gov in a while, you are strongly encouraged to confirm at least three weeks in advance that your NSF account (NSF ID) is active and does not have any account issues. For example, if your email address is associated with more than one NSF account, you will be prompted to verify information and will need assistance from the NSF Help Desk to reconcile your accounts.

<td>Thursday, July 7, 2022</td>
<td>Confirm your NSF account (NSF ID) is active</td>
<td>If you have an existing NSF account (NSF ID), confirm that it is active and does not have any account issues (e.g., suspended or is in danger of being suspended due to multiple accounts associated with your email address). To confirm your account is active, please sign in to Research.gov. If you receive a &quot;Multiple Accounts Found&quot; pop-up alert message when you sign in to Research.gov, you must contact the NSF Help Desk at 1-800-381-1532 (7:00 AM - 9:00 PM ET; Monday - Friday except federal holidays) to reconcile your accounts. Some issues require extended time to resolve. Please do not wait until the July 27th deadline to request NSF account reconciliation.</td>

| 12 days                                             | Friday, July 15, 2022 | Complete resolution of any SAM.gov certification issues | In accordance with NSF *Proposal and Award Policies and Procedures Guide* (PAPPG) (NSF 22-1) **Chapter I.G.2.**:
Organizations are responsible for maintaining the accuracy of their information in System for Award Management (SAM) and utilizing SAM to submit government-wide representations and certifications. Prior to proposal submission, all proposing organizations are required to have reviewed and certified compliance with the government-wide financial assistance representations and certifications maintained in SAM. Failure to comply with SAM certification and registration requirements will impact the submission and processing of the proposal. If a registration is not active, an organization will not be able to submit a proposal, nor will NSF be able to take approval actions on any submitted proposals or recommended awards. Additionally, payments will not be able to be processed and approved.

**Note:** Newly registered organizations should have verified active registration in SAM 21 days prior to the CAREER proposal submission deadline per page 4.

| 9 days                                             | Monday, July 18, 2022 | Submit CAREER proposal through Grants.gov | Proposals submitted via Grants.gov must go through additional processing before they are accepted at NSF. For this reason, if submitting via Grants.gov, we recommend allowing extra time to resolve any system errors and avoid high volume delays at the NSF Help Desk if problems arise.

| 7 days                                             | Wednesday, July 20, 2022 | Submit CAREER proposal through Research.gov | Aim to submit your proposal in Research.gov by this date to allow time to resolve any system errors in advance of the deadline and avoid high volume delays at the NSF Help Desk. Print the file to a PDF and view it online to make sure the correct version was submitted. Corrections are automatically accepted before the deadline.

| 0 days                                             | Wednesday, July 27, 2022 | Proposal submission deadline | Proposals are due by 5 p.m. submitter's local time. Proposals submitted after the deadline will not be accepted or will be returned without review. |
My organization does not have a SAM UEI....

Organizations must be registered with NSF to submit proposals to NSF in Research.gov or via Grants.gov. Before a new organization can register with NSF, it must first register in the SAM and obtain a SAM-issued Unique Entity Identifier (UEI). Note that the vast majority of universities are already registered with NSF.

<table>
<thead>
<tr>
<th>Target # of Days Before Proposal Submission Deadline</th>
<th>Target Date</th>

<th>Description</th>
</tr>
</thead>
</table>
| 35 days (5 weeks)                                   | Wednesday, June 22, 2022 | New organization registers in SAM and obtains a SAM UEI | This action only applies to new organizations not already registered in the SAM to do business with the U.S. government. Organizations must be registered in the SAM and have a valid UEI in order to register with NSF.  
  • To register in the SAM and obtain a SAM UEI, go to [SAM.gov](https://www.sam.gov) and select the green Get Started button on the Register Your Entity or Get a Unique Entity section in the upper right side of the page.  
  • Once your organization has provided the requested information in SAM.gov, new registrations can take an average of 7-10 business days to process. This timeframe may be longer if the information provided is incomplete or inaccurate.  
  • New organizations should start this process well in advance of the CAREER proposal submission deadline. |
| 21 days                                             | Wednesday, July 6, 2022 | New organization checks SAM.gov to see if registration is active | This action only applies to new organizations not already registered in the SAM to do business with the U.S. government.  
  • You can check the status of your registration by going to [SAM.gov](https://www.sam.gov) and selecting the Check Registration Status button in the Register Your Entity or Get a Unique Entity section in the upper right side of the page.  
  • If your registration has a status of Submitted for longer than 14 days and you have not been contacted to correct or update information, please reach out as soon as possible to the General Services Administration (GSA) Federal Service Desk (FSD) at 866-606-8220 or visit [https://www.fsd.gov](https://www.fsd.gov) to submit a ticket or live chat with the GSA FSD.  
  • Once your organization’s new SAM registration is active and you have obtained a SAM UEI, it takes up to two business days for NSF to receive and process your SAM information.  
  • Organizations cannot register with NSF without a valid and active SAM UEI. |
| 20 days                                             | Thursday, July 7, 2022 | New organization registers with NSF | The organization’s Administrator registers the new organization by signing in to [Research.gov](https://www.research.gov) with their NSF ID and then follows the step-by-step instructions in the Register a New Organization section of the Account Management Guide. Administrators without an NSF ID should follow the instructions outlined in the “I do not have an NSF ID...” section on page 2.  
  After entering the SAM UEI, the system will automatically detect that the organization is new and will walk the Administrator through setting up the organization and the Administrator role. |

**Note:** The SAM UEI replaced the Data Universal Numbering System (DUNS) Number as the federal entity identifier as of April 4, 2022. NSF populated the SAM-assigned UEIs in NSF IT systems for all NSF-registered organizations. Proposers do not need to manually replace DUNS with their SAM UEIs in NSF organizational records.
