

Program Descriptions that Require Proposal Preparation and Submission in Research.gov or Grants.gov

Innovating and migrating proposal preparation and submission capabilities from FastLane to Research.gov is part of the ongoing NSF information technology modernization efforts. Since the issuance of NSF [Important Notice No. 147](#) in September 2020, NSF has been gradually removing FastLane as a submission option in program solicitations to increase Research.gov proposal submissions. To further boost Research.gov proposal submissions and support the transition of proposal preparation from FastLane to Research.gov, NSF has started removing FastLane as a submission option for program descriptions and requiring use of Research.gov for proposal preparation and submission in response to those funding opportunities. **FastLane will be removed as a submission option from all funding opportunities when the *Proposal and Award Policies and Procedures Guide (PAPPG) (NSF 23-1)* goes into effect in January 2023.** Grants.gov will remain a submission option for most NSF proposals.

The program descriptions listed below require proposal preparation and submission in Research.gov or Grants.gov and are no longer available in FastLane.

Since many program solicitations also require submission in Research.gov, proposers should pay close attention to the requirements identified in those specific funding opportunities.

Research.gov proposal training resources including Frequently Asked Questions (FAQs), video tutorials, and how-to guides are available on the Research.gov [About Proposal Preparation and Submission](#) page.

Questions? If you have IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 (7:00 AM - 9:00 PM ET; Monday - Friday except federal holidays) or via rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov.

Instructions: *Scroll down to view the program descriptions by directorate or use the links below. This list is being continuously updated and more program descriptions will be added. Note that not all NSF directorates have active program description funding opportunities.*
